Stelll, Feyap Yapı ve Feyap Mekanik'in köklü geçmişine dayanan bilgi birikimiyle kurulmuş, yenilikçi bir marka olarak endüstriyel çözümler sunmaktadır. Diyafram pompa, regülatör ve plastik aksamlar gibi yüksek performanslı ürün gruplarımızla kimya, ilaç, gıda, tarım ve otomotiv sektörlerinde güçlü, güvenilir ve verimli çözümler sunmaktayız.

Stelll olarak sektörde yeni bir marka olsak da, bu alandaki geçmişimiz uzun yıllara dayanmaktadır. Yağbasan ve YBS dönemlerinden gelen derin tecrübemiz, pompa üretiminde sektörde kendini kanıtlamış başarılarla imza attığımız bir geçmişin devamı niteliğindedir. Stelll'in doğuşuyla, bu deneyimi ve birikimi daha da ileriye taşıyarak, güçlü altyapımızı modern bir marka çatısı altında topladık.

Ürünlerimiz Hakkında

Stelll'in diyafram pompaları, esnek diyafram mekanizması sayesinde sıvı ve gaz transferinde yüksek dayanıklılık ve güvenlik sağlar. Kuru çalışabilme özelliği ve aşındırıcı sıvılara karşı direnci ile zorlayıcı endüstriyel koşullarda güvenle kullanılmaktadır.

Regülatör ürünlerimiz, akışkanların basınç ve debisini sabit tutarak, güvenli ve verimli bir operasyon sağlar. Tarım ve otomotiv gibi sektörlerde yaygın olarak kullanılan regülatörlerimiz, akışkan kontrolünde yüksek hassasiyet sunar.

Feyap Hakkında

Feyap, köklü geçmişi ve sektörel deneyimiyle Stelll'in temelini oluşturan markadır. Ticari hayatına 1993 yılında "Fetih Plastik" adıyla başlayan Feyap, 2000 yılında markasını tescil ettirerek sıhhi tesisat ve seramik sektörlerinde öncü bir konum kazanmıştır. 2016 yılında yapısal bir yenilenmeyle Feyap Mekanik şirketini kurarak sıhhi tesisat sektöründe daha kapsamlı hizmetler sunmaya başlamıştır.

Müşteri memnuniyetini, yüksek kaliteyi, hızlı tedarik süreçlerini, rekabetçi fiyatlandırmayı ve dürüst iş yapma anlayışını merkeze alarak gelişmeye devam eden Feyap, yenilikçi ve dinamik yapıyla sektöre katkı sağlamaktadır.

Vizyonumuz

Stelll olarak, sektörde güvenilir bir marka olma vizyonuyla, müşterilerimize yenilikçi, dayanıklı ve yüksek performanslı ürünler sunma hedefindeyiz. Endüstriyel çözümlerimizle iş ortaklarımızın verimliliğini artırarak, sektörde sürdürülebilir başarıya ulaşmayı amaçlıyoruz.

Stelll offers industrial solutions as an innovative brand established with the know-how based on the deep-rooted history of Feyap Yapı and Feyap Mekanik. With our high performance product groups such as diaphragm pumps, regulators and plastic components, we offer strong, reliable and efficient solutions in the chemical, pharmaceutical, food, agricultural and automotive industries.

Although we are a new brand in the sector as Stelll, our history in this field goes back many years. Our deep experience from the Yağbasan and YBS PUMP times is the continuation of a history of proven success in pump production. With the birth of Stelll, we took this experience and know-how even further and gathered our strong infrastructure under the roof of a modern brand.

About Our Products

Stelll's diaphragm pumps provide high durability and safety in liquid and gas transfer thanks to the flexible diaphragm mechanism. With its ability to run dry and resistance to corrosive liquids, it is used safely in harsh industrial conditions.

Our regulator products provide a safe and efficient operation by keeping the pressure and flow rate of fluids constant. Widely used in sectors such as agriculture and automotive, our regulators offer high precision in fluid control.

About Feyap

Feyap is the brand that forms the basis of Stelll with its deep-rooted history and sectoral experience. Feyap, which started its commercial life in 1993 under the name "Fetih Plastik", registered its trademark in 2000 and gained a leading position in the plumbing and ceramic sectors. In 2016, it established Feyap Mekanik company with a structural renewal and started to provide more comprehensive services in the plumbing sector.

Feyap, which continues to develop by focusing on customer satisfaction, high quality, fast supply processes, competitive pricing and honest business approach, contributes to the sector with its innovative and dynamic structure.

Our Vision

As Stelll, we aim to offer innovative, durable and high performance products to our customers with the vision of becoming a reliable brand in the industry. We aim to achieve sustainable success in the sector by increasing the productivity of our business partners with our industrial solutions.
